

OPENING THE DOOR TO RELOCATING FAMILIES

Your Coldwell Banker Sales Associate has access to a steady stream of relocating families through our network of the nation's top real estate and relocation companies. Cendant Mobility Services, our largest relocation resource, represents 67% of the national relocation business, with over 253,000 annual transfers. We also work with corporate relocation departments of some of the largest Northern California companies to assist their employees in a smooth transition to their new home. Referrals from these relocation resources provide us with qualified buyers who will be among the first to learn about your home. Major corporations come to Coldwell Banker for the same reason individual clients do – our experience, expertise and quality of service.
